

An Introduction to Autism & Applied Behaviour Analysis (ABA)

Presented by: Donna Benton

This workshop introduces participants to understanding ASD and how to approach intervention. It will look at how to develop effective, individualised learning programmes and behaviour management strategies. Participants will acquire an introductory understanding of how an ABA programme addresses the complex learning needs of individuals with ASD.

What does the workshop cover?

- *Diagnostic Criteria of ASD*
- *ABA: Foundations & Applications*
- *Functional Analysis of Behaviour*
- *Proactive & Reactive Behaviour Management Strategies*
- *Learning-How-To-Learn & Other Pivotal Learning Skills*
- *Language & Communication Programming*
- *Social Skills Programming*

Date: Thursday February 28th 2019 (9:30am-4pm)

Location: London Therapy Centre, Dame Geraldine Hall, Manor Gardens, N7 6LA

Cost: £150
